1. Write a driver class called “Tester” that prints “Hello Timberline” to the console.

```
public class Tester
{
    public static void main(String[] args)
    {
        System.out.println("Hello Timberline");
    }
}
```

/4

2. A student needs to document their name and the date in the program above using remarks. Write <u>two</u> different sets of code that could be used to identify you as the author and date.

```
// Author: Taylor Swift
// Date: August 19, 2026

/*
 Author: Taylor Swift
 Date: August 19, 2026
*/
```

/3

3. Indicate what is printed when the following code is executed

```
System.out.print(“Hello”);
System.out.print(“ “);
System.out.print(“Timberline!”);
System.out.println();
System.out.println(“JAVA”);
System.out.println(“is”);
System.out.print(“awesome!”);
```

```
Hello Timberline!
JAVA
is
awesome!
```
