Name _____ Period _____

Hello World

Your Tasks (Mark these off as you go)

- ☐ Declare a class
- ☐ Write a main method
- ☐ Write code to print to the console
- ☐ Receive credit for this lab guide

☐ Declare a java class

Refer to your class notes, then write a definition for ther term “class” as it applies to java.

You want to create a class called, AwesomeJavaProgram

How should you name this file,

Write the signature for the class (**NOTE**: “signature” is just the code that is required to declare the class)

☐ Write a main method

The main method, often referred to as the “driver” is required for all java programs. In the space below, write the main method that could be used in the class you wrote above.

SC: I can create, compile, and run a Java program that produces clear, correctly formatted output

□ Write code to print to the console

The verse of a song is shown below,

1: Run away with me
2: Lost souls and reverie
3: Running wild and running free
4: Two kids, you and me

5: And I say
6: Hey, hey hey hey
7: Living like we're renegades

Write code that could be used to print lines 3 thru 5 of the verse EXACTLY as shown (Assume the apostrophe does not need escaped).

□ Receive Credit for this lab guide

Submit this portion of the lab to Pluska to receive credit for the lab guide. Once received, your completed code challenges will also be graded and will count towards your final lab grade.
